### **Young, Vegetation Fire, Del Norte County**

Location: Siskiyou Wilderness

Jurisdiction: FRA

Per Cal OES Duty Officers and ICS-209 as of 08/19/17 at 1504 hours:

- 1,200 acres, 0% contained
- Expected Containment: 10/15/17
- Monitor to ensure fire stays within the determined project area

### **Orleans Complex, Vegetation Fires, Siskiyou County**

Location: Ukonom Mountain and Siskiyou Wilderness

Jurisdiction: FRA

Per Cal OES Duty Officers and ICS-209 as of 08/19/17 at 1809 hours:

- 7,662.8 acres, 51% contained
- Expected Containment: 09/30/17
- 2 single residences, 5 other minor structures threatened
- Line construction and suppression

### **Eclipse Complex, Vegetation Fires, Siskiyou County**

Location: Near Happy Camp

Jurisdiction: FRA

Per Cal OES Duty Officers as of 08/20/17 at 0546 hours:

- 24,323 acres, 17% contained
- Expected Containment: 10/10/17
- Mop up and patrol, aerial recon, night ops and firing on the Oak

## **Salmon August Complex, Vegetation Fires, Siskiyou County**

Location: Marble Mountain Wilderness and Trinity Alps Wilderness

Jurisdiction: FRA

Per Cal OES Duty Officers and ICS-209 as of 08/19/17 at 1846 hours:

- 4,371 acres, 27% contained
- Expected Containment: 09/30/17
- Assembling resources

## **Ruth Complex, Vegetation Fires, Trinity County**

Location: Dutchman Rd, 7 miles East of Zenia

Jurisdiction: Federal DPA, FRA

Start time: 08/07/17 at 2233 hours

Per Cal OES Duty Officers and ICS-209 as of 08/20/17 at 0548 hours:

- 4,666 acres, 80% contained
- Expected Containment: 08/25/17
- Structure threat mitigated
- Aggressive suppression tactics on all fires within the complex

## **South Fork, Vegetation Fire, Mariposa County**

Location: 1.5 miles east of Wawona

Jurisdiction: FRA

Per Cal OES Duty Officers and ICS-209 as of 08/20/17 at 0548 hours:

- 3,191 acres, 10% contained
- Expected Containment: 09/03/17
- 238 residential and 2 commercial property threatened
- Direct line construction, use of air resources and firing operation to continue from Wawona Peak down the west flank from the South Fork of the Merced River towards Wawona Peak

## **Evacuations**

- Mariposa County Sheriff's Office has reported that an evacuation order is in effect for all areas east of Highway 41 along Chilnualna Falls Rd. and Forest Dr., including the Big Trees Lodge.

## **Shelter**

# WEATHER OF CONCERN

## Weather of Concern

- Gusty northeast winds will continue across the Coast Range.

## **Active Weather Warnings, Watches and Advisories by County:**

- <https://alerts-v2.weather.gov/counties/CA>

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

Moderate NE/Offshore Winds over the higher terrain in far NW California through early Monday

Isolated Thunderstorms Along Sierra Crest, Mainly Plumas County South Monday, then more numerous and widespread Tue-Wed

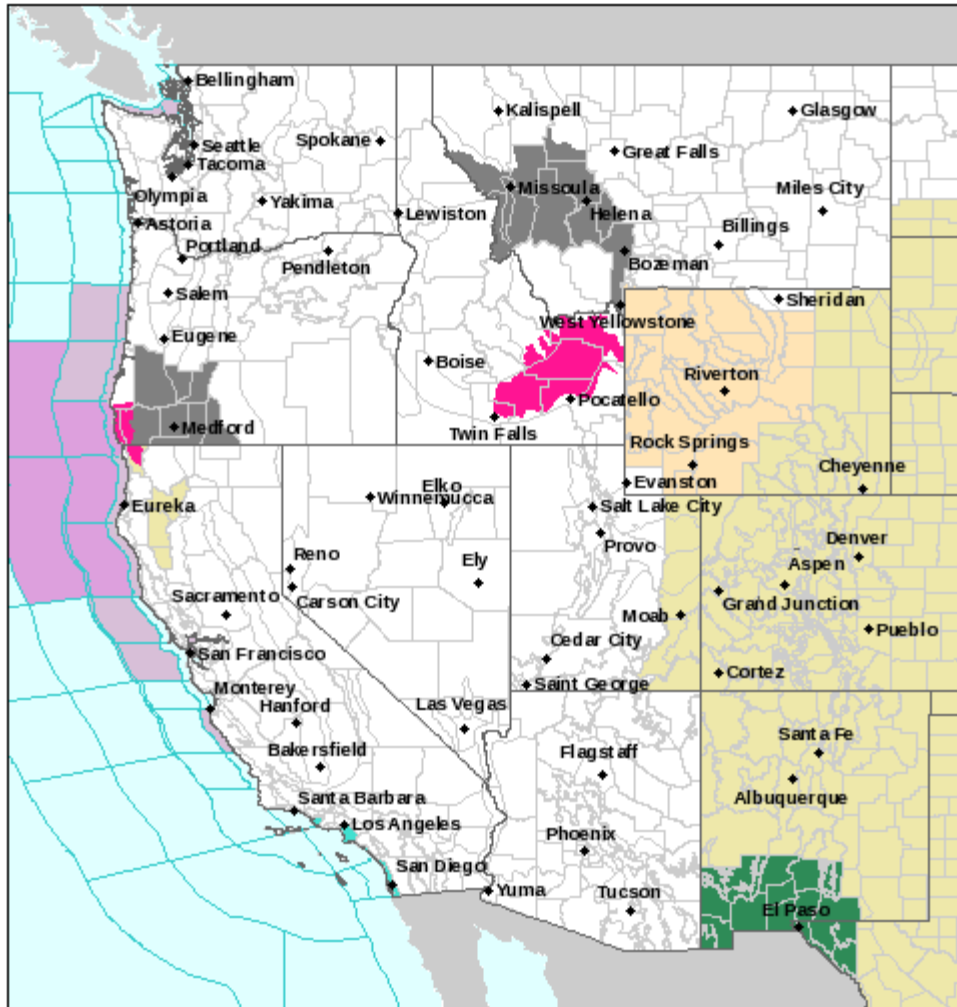

A weak low pressure trough will be over Northern California until Monday. Temperatures will near to slightly above normal in most inland areas and winds will be light away from the coast. There will be a slight improvement in air quality due to improved smoke dispersion in some western areas, but other valleys will still have poor air quality. In far NW CA NE/offshore winds will be 10-15 mph with gusts to 25-30 mph over the higher terrain, with minimum relative humidity (RH) 15-20% and RH recovery only to 40% through early Monday. There will be a daily chance of afternoon thunderstorms over the high country of the Sierra from about Plumas County south through Monday. A stray shower or thunderstorm over higher peaks elsewhere is possible, but chances at any given location outside of the main Sierra area are remote. A direct hit from a storm could produce up to 0.25 inches of rainfall, but dry strikes new ignitions are always possible.

By Tuesday a cutoff low pressure center will have formed at the bottom of the trough near the central coast. It is expected to pull moist unstable subtropical air northward into Northern California and produce scattered to numerous thunderstorms over a much larger areas Tuesday and Wednesday.

## **SOUTHERN CALIFORNIA**

Scattered afternoon showers and thunderstorms will continue over the Sierra through the middle of next week as a weak area of low pressure sits and spins off the coast of Point Conception. Thunderstorm activity will spread to the mountains and deserts of Southern California today through the middle of next week. The shower and thunderstorm activity will come to an end late next week as a deep low pressure area moves inland across the Pacific Northwest. There will be little change in temperature through the end of next week, with upper 70s and 80s across the mountains and upper 80s and 90s in the valleys. Minimum humidity will be mainly between 20% and 40% through the middle of next week, except there will be teens across the deserts. Humidity will decrease across interior sections late next week as drier air moves in from the west. Gusty westerly afternoon winds will surface across the wind prone mountain and desert areas late next week.
